

Dear exhibitors and committee,

I had a lovely time judging the Cavaliers and the Charlies at your Clubshow.

I loved the atmosphere, the sportmanslike behaviour towards each other and of course all the lovely natured Cavaliers and Charlies. For the best dogs I like to find the combination of type, soundness and temperament. Also the condition of the dog is, I think, very important.

Two points of attention, that can easily can be taken care of and improve...

A few of the dogs could be a little heavier in condition. Condition, in my idea, is important for the overall picture, coat and also contributes to the way the dog feels. His wellbeing. A few exhibitors could have taken better care of the teeth of their dogs. Clean teeth is also important for the health and happiness of the dog. I mentioned these two things to the exhibitors when judging the dogs individually.

I was very pleased with lots of lovely types and temperaments.

Happy, typical dogs to choose from.

I felt very welcome at your Clubshow, enjoyed the very nice Raclette lunch and we had great talks during the meeting with you all after the judging.

Thank you all for a lovely day.

Kindest regards
Wil Schrande
